

**FOR IMMEDIATE RELEASE: August 17, 2016**

### **NMR Helps Chico Air Museum Take Flight**

**Chico, CA:** Nichols, Melburg and Rossetto Architects and Engineers is honored to support Chico Air Museum (CAM) by providing complimentary design services for the new museum entrance and the Walk of Honor Park.

The local non-profit revitalized an abandoned, WWII era, aircraft repair hanger, and created an aviation museum for the public. In order to make the facility more consumer friendly, NMR Principal Architect David Rogers collaborated with CAM to design a modern and attractive entrance to the museum and a Walk of Honor Park to commemorate the history of aviation.

With pro-bono designs in hand, CAM has launched a fundraising campaign to cover construction costs. To date, the non-profit has raised 20% of the necessary funding to build the entrance and park. To support the museum's efforts, David Rogers created a video to assist the fundraising effort. See the video here, <http://nmrdesign.com/nmr-helps-chico-air-museum-take-flight/>.

Located at the Chico Municipal Airport, CAM is a non-profit dedicated to collecting, preserving, documenting and displaying aircraft, aviation and space aircrafts. The museum's primary purpose is to educate and inspire people of all ages about aviation and the history of flight.

Museum admission is free, and includes outdoor and indoor exhibits with interesting artifacts, pictures and historic displays, a research library and a gift shop. To support CAM visit, [https://fundrazr.com/a18WRe?ref=ab\\_45jiH2](https://fundrazr.com/a18WRe?ref=ab_45jiH2).

Now in their 49<sup>th</sup> year, northern California-based Nichols, Melburg & Rossetto Architects (NMR) is a comprehensive architecture, structural engineering and interior design firm with offices in Redding, Chico and Santa Rosa.
